Mark Scheme for June 2018

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

Question	Answer	Marks	Guidance
	<p><u>Commentary on 'equal opportunity'</u> Equal opportunity means that everyone should have the same chances to achieve their ambitions as everyone else. Differences in such things as gender, background, culture, religion and disability, should not affect this. What should count is the ability and experience to fulfil a particular role.</p> <p>The value 'equal opportunity' supports effective democracy for two reasons. If they have the chance to achieve equally, then people are more likely to have faith in their political system and will engage more readily in opportunities for decision-making. Also, if the most talented people are able to rise to the most significant roles for the development of a democracy, it is more likely to be successful.</p> <p>Candidates may draw upon evidence, including personal experience, that equal opportunity is not well-established in the UK.</p> <p><u>Commentary on the rule of law</u> The rule of law means that the law applies to everyone, even politicians, the police and the very wealthy. As with equal opportunity, this has the effect of encouraging everyone to feel fairly treated and therefore engaged within their democracy. Also, the rule of law helps to promote stability, discourage discrimination and increase levels of accountability. This contributes to effective democratic government.</p> <p><u>Commentary on personal freedom</u> Personal freedom leaves people to suggest new ideas, criticise the government and lampoon politicians. It also means people are free to promote particular points of view and political ideas as long as these don't have the effect of threatening other people's human rights. Without personal freedom encouraging debate, democracy could not work.</p>		<p>following values:</p> <ul style="list-style-type: none"> ○ rule of law ○ personal freedom ○ tolerance / respect for diversity <ul style="list-style-type: none"> ● a substantiated conclusion. <p>Level 3 (5–6 marks) A good evaluation which is coherent and relevant response to the viewpoint maintaining a sustained line of argument.</p> <p>Features must include:</p> <ul style="list-style-type: none"> ● an accurate understanding of the concepts 'values', 'equal opportunity' and 'democracy' ● a good evaluation of appropriate evidence selected from their studies ● largely accurate references to at least two of the following values: <ul style="list-style-type: none"> ○ rule of law ○ personal freedom / free speech ○ tolerance / respect for diversity ● a substantiated conclusion. <p>Level 2 (3–4 marks) A valid but basic response to the viewpoint.</p> <p>Features must include:</p> <ul style="list-style-type: none"> ● a basic evaluation of relevant evidence drawn from their studies ● limited references to one of the following values and 'equal opportunity': <ul style="list-style-type: none"> ○ rule of law ○ personal freedom / free speech ○ tolerance / respect for diversity ● a basic but specific response to the viewpoint.

Question	Answer	Marks	Guidance
	<p><u>Commentary on tolerance and respect for diversity</u> Tolerance and respect for diversity are linked to personal freedom. Without tolerance, personal freedom would be restricted and the rule of law would be threatened too. Respect for diversity is linked to equal opportunity. They reinforce one another. If diversity is repressed, then some groups are excluded and unable to properly engage in democratic decision-making.</p> <p>Conclusions It is difficult to say which UK value is most important for democracy. Excellent evaluations will show that the values are connected and reinforce each other. Excellent responses may also recognise the potential differences between ideals and reality.</p>		<p>Level 1 (1–2 marks) A limited response.</p> <p>Features must include:</p> <ul style="list-style-type: none"> • implied understanding of the viewpoint in the question • limited but valid points or examples to illustrate one of the following values or ‘equal opportunity’: <ul style="list-style-type: none"> ○ rule of law ○ personal freedom / free speech ○ tolerance / respect for diversity. <p>Level 0 (0 marks) No response or no response worthy of credit.</p> <p>Give credit to valid points wherever they appear in the response space.</p> <p>Do not credit any repetition of points.</p>
